

Senior Leadership Development Programs

Senior Managers have a rewarding but challenging task. They must communicate the organisation's goals, encourage people within the organisation to do quality work and ensure the organisation achieves ongoing success. Our development programme provides senior managers with a wide range of implementation tools which they can use to help achieve the required business results.

The emergent design of this program is necessary in order to offer practical rather than theoretical insights and provide useful and relevant tools and techniques that participants can implement immediately back at work.

Modules can be delivered as ½ day Master Classes, or 1 to 2 day workshops incorporating a mix of relevant modules. It is also possible to facilitate a session specifically to discuss and implement strategies for dealing with a “live issue”.

Key modules include:

- Strategic Thinking
- Creative Thinking
- Strategic Positioning
- Presentation Skills (Advanced)
- Strategic Influencing
- Women in Leadership – Obstacles & Opportunities
- Inspiring People
- Managing Change
- Make it Happen
- Managing Performance
- Leading Others
- Coaching (Advanced)
- Building a High Performance Organisation
- Personal Mastery
- Customer Focus
- Finance for Non Financial Managers (Advanced)
- Searching for & Managing Information

In addition the sessions are flexible enough to coach individuals on a one-to-one basis.
